

# DUONG LAM GIA KIET

## Java Intern

[kietdlg@gmail.com](mailto:kietdlg@gmail.com) | (+84) 376-059-179 | [Linkedin](#) | [Portfolio](#)

## CAREER OBJECTIVE

---

Software Engineering student with practical experience in Java, Spring Boot, RESTful API development, and backend service design. I recently completed my academic program and am seeking a position to grow my skills in real-world applications.

## SKILLS

---

- **Programming Languages:** Java, JavaScript, TypeScript, C#
- **Frameworks:** Spring Boot, ReactJS, ASP.NET Core
- **Database Management Systems:** MS SQL Server, PostgreSQL, MongoDB
- **Tools:** Git, RESTful API, Postman
- **Others:** Good understanding of OOP methodologies, SOLID principles

## EXPERIENCE

---

### Web Developer Intern                      GRANT THORNTON                      Feb 2025 - May 2025

- Built an internal expense management system that improved departmental expense tracking and reduced manual reporting efforts.
- Contributed to both frontend and backend development, applying Java/OOP principles, layered architecture concepts, and RESTful API integration in core functional modules.
- Implemented and maintained key features such as multi-step submissions, approval workflows, and reporting components under senior supervision.
- Gained foundational understanding of ERP workflows, and enterprise development practices commonly used in SAP.

### Developer (Freelancer)                      S4 CONSULTING                      Jun 2025 - Present

- Customized Acumatica ERP modules, including forms, workflows, and business logic using C# and the Acumatica Framework.
- Supported module extensions and data handling to meet specific business requirements.
- Earned official Acumatica Application Developer certification ([Badge](#)).

## PROJECTS

---

### Job Portal [[Github](#)] | [[Demo](#)]

- **Description:** A job portal connecting job seekers and recruiters with full features: job posting, application tracking, saved jobs, analytics dashboard, role-based access.
- **Technologies:** Java, Spring Boot, Spring JWT, MongoDB, REST API
- **Responsibilities:**
  - Backend dev, designed and implemented clean layered architecture.
  - Developed JWT authentication & authorization with role-based access control.
  - Built RESTful APIs for job management, applications, saved jobs, and employer analytics.
  - Implemented custom queries with Specification, pagination.

### Zalo & Acumatica Integration [[Github](#)]

- **Description:** Integration module connecting Acumatica ERP with Zalo API to deliver real-time inventory notifications, improving operational response time.

- **Technologies:** C#, Acumatica Framework, ASP.NET, SQL Server, REST API
- **Responsibilities:**
  - Analyzed business workflows and designed integration architecture for modularity and scalability.
  - Implemented Zalo API integration and real-time push notifications using C#, SQL Server, and Acumatica Business Events.
  - Optimized data processing logic, reducing notification delivery time from hours to seconds.

## **EDUCATION**

---

**UNIVERSITY OF ECONOMICS HO CHI MINH CITY (UEH)**

**2022 – 2025**

- Bachelor's degree in software engineering
- GPA: 3.66 / 4.0 | 8.67 / 10.0

## **CERTIFICATIONS**

---

- TOEIC English Certificate (845/990)
